# ELEFOAM2.0

NO TOUCH FOAM SOAP DISPENSER

**SARAYA**

Place your hand under the nozzle to automatically dispense soap. The NO TOUCH DISPENSER ELEFOAM2.0 is clean and reduces contamination.

## FEATURES

**NO TOUCH technology is ideal for clean hand washing.**

The sensor under the nozzle automatically detects your hand and dispenses the perfect amount of soap. No touch hand washing is very hygienic and prevents cross infection.

**LED sign**

When dispensing soap, the indication LED lights up green. The LED will blink green when the batteries are low and red when the batteries are dead.

**Thoughtful design for easy use**

The nozzle provides foam soap directly to your hand, and the open design extends over the tray or sink for clean use and easy access.

**Cost-saving refill system**

The ELEFOAM2.0 shows you when soap is running low. Refill from a handy disposable pack or bulk size packing. Use only Saraya designated soaps.

## NO TOUCH TO STAY CLEAN

ELEFOAM2.0 is a magic item for your washroom and adds style to your life. The functional design provides soap to open palms for a cleaner hand wash.

Stay clean with ELEFOAM2.0 for everyday hand washing.  
NO TOUCH is the new way and cleanest way to wash your hands.
